NAME: Burney Threadgill, Jr.

MARITAL STATUS: Single

LEGAL RESIDENCE: 309 East Market Street, Greenwood, Mississippi

TITLE: Special Agent

EDUCATION: Mississippi State College, BS degree, 1943; Georgetown University,

Wash., D.C., Graduate Work, 1 year.

PREVIOUS EXPERIENCE: Salesman, Inland Distribution, Southern States, 8 months;

U.S. Army, 1st Sgt., 2 years 9 months

OFFICES OF PREFERENCE: None

Threadgill is 25 years of age, having been born on October 28, 1921, in Biloxi, Mississippi. He is single and lists 309 East Market Street, Greenwood, Mississippi, as his legal address.

In June 1939 he graduated from the Greenwood High School in Greenwood, Mississippi and then attended Mississippi State College in State College, Mississippi, from which he received a BS degree in business administration in January 1943. From September 1946 until June 1947 he attended the Graduate School of Georgetown University where he received 18 hours credit toward his Masters Degree. In the summer of 1945 he attended Sorbonne University in Paris, France, while he was stationed in that country in the Army, but was not able to complete the course because his outfit was returned to the States.

During the summer months while attending Mississippi State College he was employed by the County Agent of Leflore County, Mississippi, as a reporter, contacting the farmers and checking the amount of acres planted in each type of crop. From February 1946 until September 1946 he was employed as a salesman for the Inland Distributors, covering the southern states. He worked part time while attending Georgetown University as a clerk in the Personnel Section of the State Department in Washington, D.C.

Threadgill was inducted as a private in the U.S. Army in April 1943 and was discharged as a 1st sergeant in January 1946. He was overseas with the 326th Glider Infantry Regiment of the 13th Airborne Division.

Counselor Hollis W. Bowers reports that Threadgill presents a very good appearance, possesses an average personality, and has average social contact qualities. His application toward his training school program has been excellent, and his attitude toward the Bureau has also been excellent. It is expected that Threadgill will develop into an average Agent who will require a little more than the average amount of supervision in order to develop more aggressive characteristics and a more animated personality.

BURNEY THREADGILL, JR., Special Agent

This is a 60-day efficiency report, this agent having reported for duty on October 13, 1947. This is Agent THREADGILL's first office of assignment.

This agent makes a very good personal appearance, is neat and businesslike in his dress, and possesses a very pleasant personality. He appears to possess sufficient initiative, force and aggressiveness in the performance of his duties.

He is rated as a good dictator and is a competent automobile driver. He has had no opportunity to testify in federal court, however, in most court training conducted in this office he indicated by his testimony that he would make a satisfactory Government witness. His firearms scores are average, and it is believed that he can be utilized on dangerous assignments and raids under proper supervision. He has had no opportunity to operate on a physical surveillance. This agent is a very good typist but has no shorthand ability. He is in good physical condition.

Agent THREADGILL has been assigned exclusively to the handling of applicant type investigations. His reports are well written for a man of his experience requiring the average number of corrections. He has had no opportunity to contact law enforcement officials but his contacts with the general public have been satisfactory. He has shown ability to organize and initiate investigations with a minimum of supervision. Agent THREADGILL is sincere, conscientious, and interested in his work. He has thus far appeared willing to accept and discharge responsibility without close and constant supervision. He has had no opportunity to demonstrate any supervisory or administrative ability. Agent THREADGILL has shown progress in his assignments to date, and it is my belief that he will continue to develop with experience.

He is being given the present rating of Good.

This agent makes a very good personal appearance. He dresses neatly and in very good taste. He possesses a very pleasant and sociable personality. He possesses sufficient initiative, force, and aggressiveness in the performance of his duties.

He is rated as very good in his dictation. He is a competent and careful automobile driver. He has had no opportunity to testify in federal court. He has had no opportunity to operate on a physical surveillance; however, he is considered available for this type of work.

During the rating period Agent THREADGILL has been assigned exclusively to the various types of applicant investigations, principally in the outlying districts of Chicago. His reports are exceptionally well written for an agent of his experience and require a minimum number of corrections. He has demonstrated that he has the ability to organize and initiate his own work without close and constant supervision. He has contacted law enforcement officers and the general public in a very satisfactory manner. He accepts responsibility and discharges same without close and constant supervision. His attitude for his work is very good, and he appears anxious to improve his status in the Bureau. He is an exceptionally hard working agent and handles more than the average amount of work for an agent of his experience. He is in very good physical condition.

He has had no opportunity to demonstrate any administrative or executive ability other than in the handling of his own cases which he has done in a very satisfactory manner.

Agent THREADGILL has shown exceptionally good progress, and it is felt that with more diversified experience he should develop into a better than average agent.

He is being given a rating of Good in his grade.

BURNEY THREADGILL, JR., Special Agent

This is a special efficiency report being submitted at this time in view of the transfer of Special Agent THREADGILL from Chicago, Illinois to Seattle, Washington.

This agent presents a very good personal appearance. He dresses neatly and in very good taste and is always businesslike in his approach. He has a very pleasant and sociable personality and possesses sufficient initiative, force, and aggressiveness in the performance of his duties. He has been rated as very good in his dictation by the majority of the stenographers in this office.

Agent THREADGILL is a competent and careful automobile driver. He has had no opportunity to testify in federal court. He was afforded most court \ training in this office and indicated by his testimony that he would make a good Government witness. He is qualified in the use of all Bureau weapons. He appears to possess good judgment and has an even temperament, and I believe because of these characteristics he could be utilized on dangerous assignments and raids under the supervision of a more experienced agent. He has operated on physical surveillances in this office in a satisfactory manner.

During the period covered by this report, Agent THREADGILL has been assigned to the General Criminal Squad and has handled the usual type of uninvolved criminal cases such as National Motor Vehicle Theft Act, White Slave Traffic Act, National Stolen Property Act, Impersonation, and Unlawful Flight to Avoid Prosecution. He has also assisted the resident agent on general criminal work in the Joliet, Illinois residency. He has handled this work very satisfactorily. His reports are exceptionally well written for an agent of his experience and require a less than average amount of supervision. They have contained a minimum number of errors. He has demonstrated that he has the ability to initiate and organize his own work without close and constant supervision. He has made very good contacts with law enforcement officials, and his contacts with the general public have likewise been very satisfactory. He accepts responsibility and discharges same without close and constant supervision. His attitude toward his work is particularly good, and he has shown that he is always ready and willing to accept any type of assignment. It is also noted that he has put in a considerable amount of voluntary overtime work. He is an exceptionally hard-working agent and handles more than the average amount of work for an agent of his experience. He is in very good physical condition.

This agent has had no opportunity to demonstrate administrative or executive ability other than in handling his own cases, which he has done in a very satisfactory manner.

I believe Agent THREADGILL has shown exceptionally good progress in the Bureau's work thus far, and I feel that with more diversified experience he should develop into a better than average agent.

I feel that this agent is entitled to a rating of Very Good in his grade at this time.

RE: BURNEY THREADGILL, JR. SPECIAL AGENT

This special efficiency report is submitted on Special Agent BURNEY THREADGILL, Jr., pursuant to Bureau letter dated January 19, 1949. This Agent arrived in the Seattle Division for assignment on September 14, 1948, and except for short periods in several Resident Agencies, has worked in the immediate vicinity of the Headquarters City. He has worked on the Matnap case and on applicant cases in the following classifications: 62, 67, 77, 116, 118, 123 and 124. He has filled in in the Resident Agency at Bremerton, Washington, and at Bellingham, Washington, during the absence of Agents regularly assigned in those cities and has done an excellent job during the period of assignment there. Both the volume and quality of the work performed by this Agent has been above average. He appears to be very much interested in the Bureau's work and takes full responsibility for any assignments given him. He works fast and hard. His investigations have been thorough and required only nominal supervision.

Agent THREADGILL makes a very good personal appearance, is always neat and well groomed. He dresses very well and is a friendly, serious-minded individual. He appears to be industrious and businesslike about his work. He has developed into a dependable Agent. His attitude toward his work has been excellent. During the period of his assignment in this Division he assisted in the apprehension of a deserter fugitive, and handled himself in a very commendable manner on that occasion. I would have no hesitancy at all in using this Agent on any type of dangerous assignment. During the months October through December 1948 he has participated in the regular firearms practice sessions in this Division and the scores made by him have been average for an Agent of his experience. Agent THREADGILL appeared in Federal Court in Chicago, Illinois, on December 3, 1948, on subpena and testified in the case of in connection with thefts from interstate shipments. By letter dated December 14, 1948, the Chicago Division advised that THREADGILL made a very good appearance on the witness stand on that occasion. During the period of this Agent's assignment in the Seattle Division he has had no occasion to work on either technical or physical surveillances; however, I believe he would give a very good account of himself in such work.

Based upon this Agent's performance during the period of his assignment in the Seattle Division, I believe he is entitled to a rating of EXCELLENT.

Mr. THREADGILL presents a very good personal appearance, is well mannered, alert, conscientious and has a very good attitude. Recently he has worked primarily on the Bank Robbery Case and has done a very good job. He took an interest in his assignment and followed it with little supervision. This Agent makes good contacts and should develop into an above average Agent with further experience.

RESIDENT AGENTS

SPRINGFIELD DIVISION

Reference is made to Bumemo dated February 7, 1950, entitled November and December Vouchers, Special Agent

In analyzing the trend of work and the pending work in various resident agencies of the Springfield Division, I find that it has been necessary to maintain an extra Agent the majority of the time in the Champaign Resident Agency, two in the East St. Louis Resident Agency, and part of the time in the Rock Island Resident Agency.

The work in the Rock Island Resident Agency has fluctuated to a greater extent than in the other two, and I feel that within the next thirty days it will not be necessary to have an extra Agent in this territory to the extent that he has been had there in the past.

Relative to the Champaign territory, however, I believe that it would be desirable to have an additional Agent there to assist primarily in the handling of applicant type investigations in which there is quite a large number. The criminal and security work is being handled primarily by the two Resident Agents in the territory.

In this regard, I would like to recommend that Special Agent
who entered on duty and has
been assigned to the Springfield Division since September, 1948,
be assigned to the Champaign Resident Agency, not necessarily as
a Resident Agent but that he be given headquarters there.

Relative to the East St. Louis Resident Agency, the volume of work has increased tremendously during the past ninety days. There is a large amount of applicant work in that area, and a great deal of routine criminal investigation. Previous correspondence has been had with the Bureau concerning the designation of Special Agent Burney Threadgill as a Resident Agent at East St. Louis and the Bureau has requested a special efficiency report concerning him prior to passing upon this. The Bureau by memorandum dated January 3, 1950, requested such an efficiency report, stating that the Bureau would consider the recommendation when the report was received. At that time Threadgill had only been assigned to

this office about two months. I felt that it would be desirable to have him work the territory for another sixty days prior to preparation of that report. I will make a recommendation to the Bureau when his annual report is prepared at the end of March.

I would also like to have the Bureau consider the possibility of designating Special Agent ______ to work in the East St. Louis territory, not necessarily as a Resident Agent but to make East St. Louis his headquarters.

In the event the Bureau desires special efficiency reports on Special Agents prior to changing their headquarters, I assume it will be satisfactory to again make this recommendation upon the submission of their annual efficiency report at the end of March this year.

I will discuss this matter further with Assistant Director H. H. CLEGG when I am in the Bureau for In-Service, March 6, 1950.

Re: BURNEY THREADGILL, Jr., SPECIAL AGENT ANNUAL EFFICIENCY REPORT

This is an annual efficiency report on Special Agent Burney Threadgill, covering a period from September 13, 1949 to March 31, 1950.

Special Agent Threadgill is above average in appearance, is dressed meticulously and has a very pleasant manner of meeting people. I believe he should be successful in making the Bureau contacts, not only in the business world, but in the field of law enforcement. He makes a good impression on those with whom he comes in contact and he is well-liked by all personnel in this office. He has shown a successful amount of force and aggressiveness to carry out any of his Bureau duties.

During the rating period Agent Threadgill has worked on the following types of cases: Kidnaping, Theft from Interstate Shipment, Veterans' Administration Matters, Selective Service, Interstate Transportation of Stolen Motor Vehicle, White Slave Traffic Act, Deserter, Civil Rights and Domestic Violence, Impersonation, National Bankruptcy, Theft, Embezzlement, Robbery, Illegal Possession of, or Destruction of Government Property, Antitrust, Perjury, Probation Violator, Interstate Transportation of Stolen Property, Unlawful Flight to Avoid Prosecution, Bank Robbery, Servicemen's Dependents Allowance Act of 1942, Applicants (except Bureau and Special Inquiries), Atomic Energy Act - Applicant, Applicant - Central Intelligence Agency, Special Inquiry - State Department; Public Law No. 402, 80th Congress (Voice of America), European Recovery Program. While, to date this Agent's assignments have been of the uncomplicated type, I have noted that he shows a good investigative sense and follows through on his investigations without undue supervision. He performs about an average volume of work and in general appears to understand the Bureau's desires and rules and regulations. His paper work has been uniformally good and needs but a minimum of supervision.

Agent Threadgill is rated as an excellent dictator. He appears to be in splendid physical condition and is available for general or special assignment at any time.

He has not testified in Federal Court in this area. However, his file reflects he testified in Federal Court in Chicago, a prior office of assignment, Commissioners Hearings in Seattle, Washington, a prior office, and Commissioners Hearings on two occasions in East St. Louis in this division. He also testified before a Federal

Grand Jury in the Springfield Division. This man handles himself with a good amount of poise, appears to be alert and intelligent and I believe he would handle himself well as a witness.

I have observed this Agent use firearms to a limited degree during the past winter period. His file, however, reflects that his scores are about average for an Agent of his experience and due to his general make-up I would have no hesitancy in using him on a dangerous assignment under the proper supervision.

He has not to date operated on a physical surveillance but I believe he could handle this function quite satisfactorily.

I have not noticed that this Agent has displayed an unusual amount of administrative or executive ability and I feel that at this time he is not qualified to handle the position of Special Agent in Charge or Assistant Special Agent in Charge.

Agent Threadgill strikes me as being an Agent who can with application to his work develop into a better than average Agent. I am satisfied with his progress to date and I believe he will continue to progress.

He is entitled to a rating of Very Good in his grade.

RATING - VERY GOOD, GS-11.

I have read the above ________.

It is recommended that Agent Threadgill be designated as Resident Agent at East St. Louis, Illinois.

employed 8 or 10 people in a clerical capacity, who worked in

the Walker-Johnson building. They were allegedly all instructed

to go through the personnel files and remove all derogatory in forma
tion concerning any State Department employees.

Senator McCarthy stated he had obtained statements from 6 of these former clerks and he has found that two of the others are presently employed by the FBI, namely Burneu Threadaill, Jr., who is a Special Agent with the Bureau, and who senator McCarthy stated was a clerk with the Bureau.

I have checked the personnel records and have determined that Burney Threadgill, Jr. is presently a Special Agent with the Bureau. He was appointed a Special Agent July 21, 1947. He is presently assigned as resident agent at East St. Louis, Illinois. At the present time he is attending inservice class and is in Quantico, Virginia.

I have further ascertained that the clerk who was employed as a clerk by the Bureau on September 2, 1947, was assigned as a fingerprint classifier and who resigned May 4, 1950. He is presently living at

Senator McCarthy stated he would like to talk with these two employees. I told him I thoughts throught the totalk with undesirable, but I, of course, would have toucheck the matter with you. He stated it was not too important to him, in view of the fact that he has obtained statements from the others; that, however, the question may come up as to which he has only talked with 6 of the group and not the desirable it stated him Line would check this matter with you and would be highly he has only

I talked with Special Agent Henry Sloan at Quantico, Virginia and asked him to interview Threadgill and obtain a statement from him. This he did, and a statement is attached hereto, indicating that no such instructions were ever received by Agent Threadgill; that he was assigned to reviewing personnel jackets, but that he had not destroyed any material and had not been instructed to do so.

The Washington Field Office interviewed and he stated he knew of no papers having been removed from the State Department personnel files; that he did work on personnel files there, but that he was of the opinion that all papers were left in the files; that he was engaged in securing data for use in preparing punch cards on the employees. The letter from the Washington Field Office reflecting this interview is attached.

I endeavored to reach Senator McCarthy on the evening of Saturday, July 8th, but was advised at his residence that he had left the city at noon on Saturday and would not return to his office until Monday morning.

All all and a second

In accompance with your approval, I had Special Agent Burney Threadgill, Jr. call at the office of Senator McCarthy at 11 o'clock this morning. Upon his return to the Bureau, Agent Threadgill advised me that he had made a statement for Senator McCarthy which was practically identical to the statement he had previously made for the Bureau.

As a matter of interest, however, he stated that Senator McCarthy let him read the statements of the other clerks working there and they all stated they had received instructions to strip thefiles of derogatory information; that they had so stripped the files and that the papers removed had been placed in a cardboard box in the office where they were working. Agent Threadgill stated that apparently this activity had all taken place prior to the time he had been employed by the State Department and that, therefore, when he was employed there, he was not given any such instructions because presumably the project was then completed. Agent Threadgill stated that Senator McCarthy promised to send him a copy of the statement.

At 3:20 PM, Senator McCarthy called and stated that he was sending two copies of the statement made by Migenty ill. Threadgill to the Bureau, I have given him this copy and the other is attached hereto.

It is noted from this statement that the Agent stated that he recalls one of the other clerks telling him that some of the employees of the State Department had gone to the files and removed the derogatory material which was in the files on themselves.

This information was included in the original statement of Agent Threadgill which was obtained from him by Special Agent Sloan at Quantico.

I, Burney Threadgill, Jr., 17 South 88th Street, Belleville, Illinois was employed by the Department of State in Washington, D.C. as a clerk in the Personnel Section in November and December 1946. I was under the supervision of _____ At this time my duties were to review personnel jackets of the departmental employees At this time my in an effort to synopsize certain information in the employees file, noting such things as educational qualifications, information relative to the background and employment of the individual. This data was placed on 8 x 10 cards, a separate card for each employee. Many of the personnel jackets contained FBI investigative reports. I did not receive any instructions to remove any serials in these jackets which reflected derogatory information. I am able to recall one occasion when a clerk, I do not recall which one, said that some employees when reviewing their own files destroyed the FBI report if it reflected any information of an unfavorable nature concerning himself. Such an act was done under the presumption that no one knew the difference inasmuch as all jackets did not contain FBI reports.

I, Burney Threadgill Jr. make this statement without any promises whatsoever I make this statement in order to tell the truth.

Statement in order to tell the truth. In Horemen of 1946 I cantoted

who was personnell placement officer for the State Department at the Walker- Johnson Bldg. He advised me that he would hire me only as a temporary clark on a file project of the State Department files. I started working in the State Department files at the Walker- Johnson Bldg around nov1, 1946. I worked for about 6 weeks on the file project. My duties were to take the file which contained the qualifications of the state department employees, background forms, and adminstrative promotions, and type this information on a card for that employee. The file were brought to me and placed on my desk. This project was being performed apparently on some sort of deadline date because who was nicknamed who app was

had to get the job done and that it had already passed the deadline and that he had arranged to extend the deadline and that if we did not meet the new deadline it would reflect on his efficiency. I do not know or recall what the other clocks were doing with the files before I recoved them because I was at a deak and had the files brought to me where I typed the contents on a cand as I previously stated in this statement. I do recall that the files brought to me. Contained the original application, administrative forms such as Ramspecke promotions and transfers, I also recall that some very few contained investigative reforts.

This project was very confused, humed and very little supervision of the clerks. I recall talking to one of the other clerks (I can't recall his name at this time) when he total me that he knew some of the employees of the State department had come to the files and removed the decogatory material which was in the file on themselves.

I was located in an effice where I did not see or have reason to go into the big room where the files were. The following is a plan where I was located.

RE: UNIFORM PROMOTION

This employee entered on duty as a Special Agent on 7-21-47 in Grade CAF-10, \$4525.80 per annum, and was reallocated to Grade CAF-11 on 2-20-49, \$5232 per annum. As the result of a basic increase in pay, his present salfy is \$5400 in Grade GS-11. He is eligible for a Uniform Promotion, effective 8-20-50.

On 9-13-49 SAC Wilcox rated him GOOD.

During the inspection of the Seattle Office in October, 1949, the inspector (ASAC L. C. Nulty) agreed with the comments of the SAC who said Agent Threadgill presented a very good personal appearance, was well mannered, alert, conscientious and had a very good attitude. Recently he had worked primarily on the Robbery Case and had done a very good job. He made good contacts as should develop into an above average Agent with further experience. Status: Good.

On 3-31-50 SAC Poster rated him VERY GOOD and said he was above average in appearance, had a very pleasant manner and should be successful in making Buréau contacts. He made a good impression and had shown a successful amount of force and aggressiveness to carry out any of his Bureau duties. To date his assignments had been of the suncomplicated type, but the SAC had noted that he showed a good investigative sense. and followed through on his investigations without undue supervision. He performed about an average volume of work and in general appeared to understand the Bureau's desires, rules and regulations. His paper work had been uniformly good and needed a minimum of supervision; he was an excellent dictator, appeared to be in splendid physical condition and was available for general or special assignment. The SAC believed that he would handle himself well as a witness and that he could handle a physical surveillance satisfactorily. His file reflected that his firearms scores were about average for an Agent of his experience and due to his general make-up, the SAC would have no hesitancy in using him on a dangerous assignment under proper supervision. So far he had not displayed an unusual amount of administrative or executive ability. SAC thought that he was an Agent who could with application to his work develop into a better than average Agent and the SAC was satisfied with his progress and believed that Agent Threadgill would continue to develop.

By memorandum dated 7-10-50, to the Director, Mr. Ladd advised that

bб

Senator McCarthy had called and stated that he would like very much to talk with Agent Threadgill at his office the following morning. This was in connection with Threadgill's previous employment as a clerk with the State Department and the information the Senator had received that clerks had been instructed to remove derogatory information from State Department personnel files. The Director approved that Agent Threadgill see Senator McCarthy at the latter's office. Upon his return Agent Threadgill advised Mr. Ladd that he had made a statement for Senator McCarthy which was practically identical to the statement he had previously made for the Bureau. The Agent stated that he recalled one of the other clerks telling him that some of the employees of the State Department had gone to the files and removed the derogatory material which was in the files on themselves.

RECOMMENDATION: It is recommended that he be afforded an increase of \$200 in salary under the provisions of the Uniform Promotion Act to \$5600 in Grade GS-11, effective 8-20-50.

AT THE REQUEST OF REPORTERS MCCARTHY MADE PUBLIC A LETTER WHICH HOOVER ENCLOSED WRITTEN BY PEYTON FORD, ASSISTANT TO THE ATTORNEY GENERAL, TO TYDINGS ON JUNE 16, AND UPON WHICH TYDINGS BASED HIS REPORT THAT THE FILES WERE COMPLETE.

"THE STATE DEPARTMENT FILES HAVE BEEN CHECKED AND I CAN ASSURE YOU THAT ALL OF THE REPORTS AND MEMORANDA WHICH HAD PREVIOUSLY BEEN FURNISHED THE STATE DEPARTMENT ARE IN THE FILES," FORD WROTE TYDINGS.

THE LETTERS FROM THE FOUR PERSONS EMPLOYED ON A STATE DEPARTMENT CLERICAL JOB SHOWED THAT THE ALLEGED FILE STRIPPING OCCURRED BETWEEN AUG. 1946 AND DEC. 1946, A FEW MONTHS BEFORE THE PRESENT PRESIDENTIAL LOYALTY CHECKUP SYSTEM WAS INSTITUTED. HE SAID "SOME VERY FEW," OF THE ALLEGEDLY "EDITED" FILES CARRIED "INVESTIGATIVE REPORTS," AND DECLARED THAT HE HAD BEEN INFORMED THAT SOME STATE DEPARTMENT EMPLOYES "HAD COME TO THE FILES AND REMOVED DEROGATORY MATERIAL WHICH WAS IN THE FILE ON THEMSELVES."

MCCARTHY TOLD A NEWS CONFERENCE THAT FORD'S LETTER TO TYDINGS INDICATED THAT ONLY 70 PERSONNEL FILES ON THE SO-CALLED "81 CASES" HE LAYED BEFORE THE SENATE WERE MADE AVAILABLE TO THE COMMITTEE,

PLUS TWO FILES COVERING PEOPLE HE DID NOT NAME.

THOSE NOT SUBMITTED THE COMMITTEE FOR STUDY, MCCARTHY SAID, WERE FILES ON "SOME OF THE WORST ACTORS" IN THE STATE DEPARTMENT. HE SAID THE FILES ON AMBASSADOR-AT-LARGE PHILIP C. JESSUP AND WILLIAM W. REMINGTON, RECENTLY INDICTED FOR PERJURY, WERE NOT INCLUDED. REMINGTON WAS A COMMERCE, NOT A STATE DEPARTMENT EMPLOYE, BUT MCCARTHY SAID HE WAS "ASSOCIATED" WITH STATE.

THERE WAS NO IMMEDIATE INDICATION WHETHER THE FILES TO WHICH MCCARTHY'S INFORMANTS REFERRED INCLUDED THE PERSONNEL JACKETS OF THOSE HE HAS CHARGED WITH BEING COMMUNISTS, PRO-COMMUNISTS AND BAD

SECURITY RISKS.

TYDINGS TOLD NEWSMEN ON JUNE 21 THAT HE HAD BEEN INFORMED BY THE JUSTICE DEPARTMENT THAT A JUSTICE-FBI CHECKUP HAD INDICATED

NOTHING MISSING FROM THE FILES.

HOOVER TOLD MCCARTHY THAT THE FBL HAD MADE NO EXAMINATION OF THE FILES, BUT HAD FURNISHED FORD A "RECORD OF ALL LOYALTY MATERIAL FURNISHED THE STATE DEPARTMENT IN THE 81 CASES" REFERRED TO BY MCCARTHY. Re: BURNEY THREADGILL, Jr., SPECIAL AGENT SPECIAL EFFIC IENCY REPORT

This is a special efficiency report on Special Agent Burney Threadgill, Jr., who is transferred to Anchorage, Alaska office. It covers the period from March 31, 1950 to date.

Special Agent Threadgill is above average in appearance, dresses meticulously and is well-groomed at all times. He has a very pleasant manner and approach and meets people well. He should be successful in making Bureau contacts, not only in the business world but also in the field of law enforcement. He makes a good impression on those with whom he comes in contact. Agent Threadgill is well-liked by personnel in this office and has shown a cooperative attitude. He has displayed a sufficient amount of force and aggressiveness to carry out his duties as a Bureau Agent. He accepts and discharges responsibility with a minimum of supervision.

During the rating period Agent Threadgill has worked on the following types of cases: Kidnaping, Theft from Interstate Shipment, Veterans' Administration Matters, Selective Service, Interstate Transportation of Stolen Motor Vehicle, White Slave Traffic Act, Deserter, Civil Rights and Domestic Violence, Impersonation, National Bankruptcy, Theft, Embezzlement, Robbery, Illegal Possession of, or Destruction of Government Property, Antitrust, Perjury, Probation Violator, Interstate Transportation of Stolen Property, Unlawful Flight to Avoid Prosecution, Bank Robbery, Servicemen's Dependents Allowance Act of 1942, Bureau Applicants, Atomic Emergy Act Applicant, Applicant - Central Intelligence Agency, Special Inquiry - State Department; Public Law No. 402, 80th Congress (Voice of America), European Recovery Program.

Agent Threadgill shows a good investigative sense, follows through on his investigations without undue supervision, has a good understanding of the Bureau's rules and regulations, and has handled a good volume of work. I have had to criticize him, particularly in the month of June, 1950, for permitting some of the more important cases assigned to him to become delinquent while he was handling current routine matters. This matter was discussed with him at great length at that time and it was pointed out to him that he must properly evaluate his cases and see that they are given attention in connection with their value, and that he should make every effort to keep cases assigned to him current. During that period Agent Threadgill did have heavy assignments, but I felt he could have used better judgment in cases he should have worked on. He accepted this criticism very well and has corrected this situation in the past several months and has evaluated his work well and handled it accordingly.

It was also necessary in December, 1949 to bring to Agent Threadgill's attention a rough draft report submitted by him in the case of Springfield file 116-6713, that was unsatisfactory. The matter was discussed with him. He accepted the criticism well and has eliminated errors that he made in that case. He has from time to time failed to properly recharge serials. However, this matter has also been brought to his attention and during the past several months he has corrected this situation. He is amenable to criticism, accepts it in the proper manner and corrects delinquencies pointed out to him.

Agent Threadgill is rated as excellent in dictation by three stenographers and very good by three other stenographers of this office, the only criticism being made was that he was a little slow in his dictation. This matter was also discussed with him and during the past several months improvement has been shown in this regard. He should have no difficulty in this regard and in a minimum of time should be rated excellent in dictation.

Agent Threadgill has testified in Federal Court and before United States Commissioners and United States Grand Juries. He makes a very good witness, handles himself well with a good amount of poise, appears to be alert and intelligent, and should have no difficulty in this regard.

I have observed Agent Threadgill in the use of firearms during regular firearms training and he handles Bureau weapons with about average ability. He observes safety regulations, has a good steady temperament, and due to his general make-up I would have no hesitancy in using him on a dangerous assignment under the proper supervision.

I have had no opportunity to use Agent Threadgill on a physical surveillance during the period covered by this report, but I believe he could handle this function satisfactorily.

Up to this time Agent Threadgill has not displayed an unusual amount of administrative or executive ability, and I feel he is not qualified at this time to handle the duties of Special Agent in Charge or Assistant Special Agent in Charge.

I am satisfied with this Agent's progress, and I believe that with application to his work Agent Threadgill will develop into a better than average Agent.

He is entitled to a rating of Very Good in his grade.

RATING - VERY GOOD, GS-11.

Special Agent Anchorage Office

The personnel file of the above agent, who has been in Grade 11 over two years, has been reviewed and it is noted that on his last efficiency report dated 11-10-50, he was rated WERY GOOD. The SAC commented that he had had to criticize Threadgill, particularly in the month of June, 1950, for permitting some of the more important cases assigned to him to become delinquent while he was handling current routine matters. This matter was discussed with him at great length at that time and it was pointed out to him that he must properly evaluate his cases and see that they were given attention in connection with their value, and that he should make every effort to keep cases assigned to him current. During that period, the Agent did have heavy assignments, but the SAC felt he could have used better judgment in cases he should have worked on. He accepted this criticism very well and had corrected this situation in the past several months and had evaluated his work well and handled it accordingly. It was also necessary in December, 1949, to bring to his attention a rough draft rethat was unsatisfactory. port submitted by him in the case of The matter was discussed with him and he had eliminated errors that he made in that case.

He had from time to time failed to properly recharge serials. However, this matter had also been brought to his attention and during the past several months he had corrected this situation. He was amenable to criticism, accepted it in the proper manner and corrected delinquencies pointed out to him. He was rated excellent in dictation by three stenographers and very good by three others of that office, the only criticism being that he was a little slow in his dictation. He had shown improvement in this regard during the past several months and should have no difficulty in this regard. His overtime record for October, 1950, was 2 hours 57 minutes, for November 2 hours 15 minutes, and for December 2 hours 47 minutes.

RECOMMENDATION: It is recommended that he be passed over for reallocation at this time and that handon onsidered upon receipt of his 1951 annual efficiency report.

BURNEY THREADGILL, JR. GRADE GS-11

Agent Threadgill entered on duty in the Bureau July 21, 1947, and has served in the Chicago, Seattle and Springfield Divisions prior to coming to Anchorage, Alaska, on November 30, 1950. He handles all types of investigations and particularly loyalty, Atomic Energy Act and applicant type cases. He is available for assignment anywhere the Bureau sees fit to send him.

Agent Threadgill makes an excellent appearance, being of medium height and size, well dressed and of affable manner. He has a very pleasing personality that enables him to meet the public well, make friends with law enforcement agents and also enables him to work with fellow employees. He keeps himself in very good physical condition.

Mr. Threadgill handles a large volume of work with a minimum amount of supervision. His reports are well written, indicating attention to detail and important objectives. He is rated excellent and very good in dictation.

Although I have had no occasion to observe him in field firearms training, he has participated in arrests and I would have no hesitancy in assigning him to raids, surveillances and other matters involving personal danger. He has exhibited initiative, forcefulness, ambition and a desire to progress in Bureau service. This man is an asset to the Bureau and loyal to it.

He merits an adjective rating in the upper bracket of "Satisfactory" in Grade GS-11.

CLIO CLEMENT TANNER STAGE, SBA (Bufile 62-93491) PERSONAL AND CONFIDENTIAL

Rebulet September 10, 1951.

There are transmitted herewith copies of memoranda obtained from SA and SA BURNEY THREADGILL, JR., both of whom contacted TANNER during the course of this investigation and prior to the time of TANNER's departure for Washington.

prior to his departure from Amchorage, Alaska. At that time the purpose of the program as far as he was concerned was outlined to him by me. There was no doubt in TANNER'S mind as to the purpose of the SBA Program, nor his part in it. He was completely amenable to participate in it and so stated. His statements to officials in the Bureau that he did not know the purpose of the program and that he felt he would be expected to guard a cache of supplies which was to be stored in the vicinity of Nome are false and without foundation.

During the interview that I had with Mr. TANNER prior to his departure, he explained at some length the splendid state of his physical condition. He said that he went to Seattle periodically for a physical checkup. At no time during this conversation did he bring up the matter of his feet and I have no reason to believe that the use of them might in any way be impaired.

In addition to the above, when Mr. TANNER was interviewed by SA BURNEY THREADGILL, JR. concerning attendance Enclosure

66-379 JHW:MR

at the Stage School in Washington and his possible participation in parachute jump training, he said that he did not desire to take parachute jump training due to his age. However, he also stated that in case of emergency he would be willing to make a jump. Such statement would indicate that he had no trouble whatsoever with his feet.

When Mr. TANNER was examined at the Medical Clinic, Fort Richardson, Alaska, he apparently made no reference to the examining physician concerning his feet.

Upon Mr. TANNER'S return to Anchorage on September 13, 1951 he was again interviewed by me in the presence of SA At that time he again was cautioned concerning the necessity of security in this matter and that the dissemination of any information whatsoever concerning it might make him liable for prosecution under the espionage statutes.

b6

From the attached memoranda and my personal interviews of Mr. TANNER, I feel that the definite possibility exists that he used his stated impairment of his feet to renig from the program after he reached Washington for some unstated reason of his own.

It is recommended that no action be taken against the Agents who contacted TANNER and conducted the investigation concerning him.

While conducting other investigations in Nome, Alaska, on 7-20-51, the writer was instructed to contact Mr. TANNER and ascertain when he would be available for SBA training at the Seat of Government, if he was interested in parachute jump training, his beneficiary, and to advise him of financial arrangements. Mr. TANNER was interviewed same date in compliance with instant instructions and this information was obtained.

In reference to parachute jump training, Mr. TANNER explained that he was not interested in this phase of the program solely because of his age. However, in case of emergency, he would be willing to make a parachute jump. Mr. TANNER made no reference to any physical defects which would affect his participation in this program.

To advise that SAC, Anchorage recommends no administrative action with regard to investigation and recruitment of Tanner.

BACKGROUND:

Tanner arrived at SOG for training as a SBA on 9-3-51, was advised of the nature of the program and the part it was intended he would play. He gave no indication he could not participate. Later, however, it was learned he had complained to his OSI monitor that he was not physically fit for the program and that he would not have agreed to training had he known beforehand what would be expected of him. On interviw by Bureau representative $^{\mathrm{T}}$ anner proclaimed he patriotism while weeping but contended that the limitations impo ed by his deformed foot would not permit him to functions a SBA. He stated he had no knowledge of the nature of the program prior to a rrival in Washington. In addition, it appeared that he was grasping for every possible excuse as to why he could not be considered further. His training was necessarily ended by mutal consent and he returned to Alaska. Anchorage was instructed to advise full details of the investigation and recuritment of Tanner and specially whether any physical impairment which would make anner unsuitable had come to the attention fo Agents and whether Tanner was made aware of the nature of duties which would be expected to him.

ANCHORAGE REPLY:

Attached is Anchorage letter dated 9-14-51 by which mamoranda prepared by Special Agent and Special Burney Threadgill were trasmitted. A memorandum had and Special previously been obtained at SOG from Special Agent Edward A. Ple vack who was receiving training in this program at the time the incident "emoranda of the three agents reflect that Tanner was fully aware of the general nature of the program, that although the fact that he had had an operation during youth to correct a club foot had come to their attention, there was nothing whatsoever to indicate that Tanner could not function as a SBA. He, in fact, boasted of ne was known in his community as his splendid physical condition. a sportsman who went on frequent hunting and fishing trips. himself had indicated that persons in Alaska were not aware that he had any physical impairment.

SAC Williams has advised, in addition, that he personally outlined to Tanner, prior to his departure from Alaska, the nature of duties for which he would be trained, and that he gave no indication whatsoever that he could not function for physical reasons or otherwise. In summary, the SAC concluded that Tanner has used his stated impairment to renege from the program, his true reason being otherwise. He recommended no administrative action as to the personnel who had contacts in the investigation and recruitment of Tanner.

For you further information, Tanner was drowned on September 18, 1951, after his return to Alaska.

RECOMMENDATION:

This memorandum with the attached Anchorage letter be routed to the Administrative Division for appropriate attention. It does not appear that any administrative action is justified.

PERSONAL AND SOME IDENTIAL

PERSONNEL ADVANCEMENT

Reference SAC Letter No. 34 dated April 8, 1952.

This office has no full-time approved field supervisors.

This office has no Special Agents in Grade 68-13.

The following are those agents assigned to the Anchorage field division who, in my opinion, should be considered on a long-range development basis as administrators and executives in the Bureau.

(1) SA JAMES T. MORELAND.

This Agent makes a splendid appearance, being big (6'4"), personable, and possessed of intelligence, good judgment, and the ability to make contacts with all types of people. He is possessed of mature judgment and has had considerable experience in the business and military worlds.

I consider him to be one of the best, if not the best, investigator in the Anchorage Office. He is meticulous in his work, very thorough and careful in the preparation of his reports. He is fast becoming a well-rounded and excellent Bureau employee. He handles all types of cases and I know of no limitation concerning his abilities. He has had some experience in administrative and executive work, having been ASAC in the Anchorage Office for a short time. He was premoted to this position after coming to the Anchorage Office as a Special Agent. He was demoted on August 3, 1951 for handling a highly confidential investigative matter in such a manner that the extreme secrecy required was jeopardized. He received a letter of censure for this from the Director, which letter is dated August 3, 1951. It is believed this man benefited by the Bureau censure and has exerted every effort since that time to preclude any such errors in the future. He has shown a very good attitude in connection with the incident and appears to be determined to overcome it.

I believe that he is a definite asset to the Bureau, is loyal to it, and is possessed of administrative and executive ability.

(2) SA EDWARD A. PLEVACK.

SA PLEVACK has been in the Bureau since February 17, 1947 and is presently in Grade GS-12. He is a big, mature man. He makes a

splendid appearance, is well mannered and well dressed, and has a very definite ability to meet and get along very well with all types of people. He is adaptable, intelligent, and is willing to work anywhere that his abilities may be utilized. There has been very little opportunity to give this man administrative or executive training in the Anchorage Office in view of its size, but every effort is being made to do this.

SA PLEVACK can handle all types of investigative operations without limitation. He has sufficient force and initiative and the proper personality to handle men.

It is felt that he should be considered for some administrative training, possibly as supervisor at the Seat of Government, looking forward to development or additional responsibilities.

(3) SA BURNEY THREADGILL.

i i i ngʻid

SA THREADGILL has been in the Bureau since July 21, 1947 and is presently in Grade GS-12. He makes a splendid appearance and has the definite ability to get along in his contacts with all types of people. He has shown a definite flair for liaison work and it is felt that his capabilities in this regard should be developed and utilized.

In addition, he handles all types of investigative work and there has been noted no limitation on his abilities in this regard. He has shown latent administrative ability although there has been little opportunity to afford him training and experience along this line in the Anchorage Office because of its size.

It is felt that he would function quite well as a supervisor at the Seat of Government, and particularly in a liaison capacity. He is being recommended for consideration in that regard.

BURNEY THREADGILL, JR. SPECIAL AGENT PERFORMANCE RATING Grade GS-12, \$7040 EOD 7-21-47 Arrived Anchorage Office 11-30-50

SA THREADGILL makes an excellent appearance. He has a pleasing personality and meets the public and law enforcement agents well. He is in good physical condition. He has been handling all types of investigations including criminal, security and applicant matters. He handles a large volume of work with very little supervision. He is rated excellent in dictation. He handles firearms well and has participated in arrests, raids and surveillances. I would have no hesitancy in assigning him to lead a raid or handle other matters in which personal danger is involved.

Mr. THREADGILL has a particular flair for contact work and it is believed that he would do well on liaison assignments, either at the Seat of Government or in the field. He has exhibited administrative ability and it is felt that this should be developed. He has indicated a willingness to work anywhere and on any assignment.

This Agent has a good knowledge of the Bureau's work and responsibilities and has exhibited a splendid attitude in furthering the Bureau's interests. He is loyal to the Bureau and an asset to it.

Agent THREADGILL merits a rating of satisfactory in Grade GS-12.

San Francisco, California March 31, 1953

Special Agent THREADGILL arrived in San Francisco on November 15, 1952 on transfer from Anchorage. The comments contained in the performance rating dated November 14, 1952, continue to apply. SA THREADGILL entered on duty on July 21, 1947. He is single, and 31 years of age. SA THREADGILL possesses above average appearance. He is of medium height and very well groomed at all times. He has a pleasing, friendly personality. He appears to be in good physical health and I would not hesitate to utilize him on raids and dangerous assignments as a participant, under supervision.

It is noted that SA THREADCILL has testified very satisfactorily in federal proceedings in the past. He has consistently been rated Excellent as to dictation ability. Due to the nature of SA THREADCILL's assignment he has not been in a position to develop any confidential informants; however, he has indicated a definite interest in making this an accomplishment and I feel that under proper circumstances he will give this matter his utmost attention.

Special Agent THREADGILL possesses an excellent attitude toward his work. He is dependable, cooperative, and has enthusiastically demonstrated willingness to equitably share the work load. Since his assignment to the San Francisco Office he has worked primarily the more difficult cases, such as Special Inquiries and Loyalty of Government Employees. His completed reports have been submitted in very good order. It is noted that SA THREADGILL knows how to plan his work and make decisions. He is definitely mature and emotionally stable, and is able to get results. For this reason I feel that he definitely has latent administrative capabilities and he is progressing in a very satisfactory manner.

Rating: SATISFACTORY.

San Francisco, California March 31, 1954 ADDENDUM: BURNEY THREADGILL, JR. SPECIAL AGENT GRADE GS-12

Attached is the Annual Performance Rating on SA BURNEY THREADGILL, JR.

From April 1, 1953 to October 12, 1953, SA THREADGILL was assigned to the Applicant-SGE Squad in the San Francisco Office. SA THREADGILL has an excellent attitude. He is dependable, cooperative and enthusiastic. While assigned to the Applicant-SGE Squad he handled the more difficult type of cases, such as Special Inquiries and SGE. His reports were excellent. He displayed the ability to plan his work, make decisions and meet deadlines.

Since his assignment to the Security-C Squad, SA THREAD-GILL has learned how to conduct security investigations and how to report them in conformity with Bureau standards. In this respect the supervisory staff noted that the first security index summary report prepared by him was the best first report produced by any Agent newly assigned to the Security Squad.

SA THREADGILL can handle complicated investigations under appropriate supervision. He is physically fit and can participate in raids and dangerous assignments involving the possible use of firearms or defensive tactics. He has not as yet had an opportunity to develop a security informant. It is expected that he will do so as he gains additional experience in security work.

Rating: SATISFACTORY.

SUBJECT: OAKLAND RESIDENT AGENCY

The current case load situation at Oakland is as follows: There are 26 Agents presently assigned there, having a total of 995 cases, overhalf of which are security investigations. This breaks down to 38 cases per Agent. In addition to the actual case load, there are over 100 security index subject verifications to be made each month, plus handling the highly confidential sources and other matters relating to two Underground subjects residing in that area. In addition to the 26 Agents assigned there are two Special Employees, one who handles credit and criminal checks, plus arranging for the physical examinations of Agents, and the other being assigned full time to the technical plant.

It is requested that the following three Agents be designated as Resident Agents at Oakland. This could be accomplished without any expense to the Bureau since two of them are already residinguin that area, namely, CHARLES F. BRUSCH and and the third is a single Agent to whom the move presents no particular problem.

SA CHARLES F. BRUSCH, EOD 6-16-11, GS-13, formerly operated as Resident Agent at Oakland and thereafter was transferred to headquarters city as Assistant Supervisor. It is noted that he was recommended for reassignment to the Oakland Resident Agency in May and recommendation was turned down by the Bureau because of an administrative action taken against him previously in his capacity as Supervisor. The administrative action involved delayed reporting by one of the Agents under his supervision, and the other was in connection with an inspection report based on errors of form found and failure to take necessary action to locate a complaint form which had been lost. On the other hand, he was commended three times during the period of his assignment as Assistant Supervisor for his excellent supervision in important criminal cases. There is no question but what he would capably represent the Bureau as a Resident Agent.

investigations and it is contemplated that he will continue working in this field is assigned to Oakland. He has proved to be a dependable, hard working Agent, and on the basis of his appearance and performance should capably represent the Bureau as a Resident Agent.

SA BURNEY THREADGILL, FR., EOD 7-21-47, GS-12, has previously operated as a Resident Agent in the Springfield Office. He has handled all types of Bureau investigations, although is is presently working security-type investigations. He is dependable, cooperative, and enthusiastic. He has the necessary appearance, experience, and capability of operating as a Resident Agent.

In the event the Bureau assigns these three additional Agents to Oakland, it would still mean that each Agent assigned there has 34-plus cases to handle, on an average.

HEALTH MATTER

Holloman ____

Agent Threadgill reported to the Health Service April 25, 1955, because of a pain in his back. The pain developed when Agent Threadgill leaned over to pick up his suitcase after getting off the plane the evening before when he arrived in Washington. Agent Threadgill was furnished with Form CA-16 and sent to U.S. Public Health Service for examination. He later reported that Dr. Crawford, who examined him, said he had strained a muscle in his back and recommended he return April 26, 27 and 28 for heat treatment and massage to his back.

Special Agent Threadgill was furnished Compensation Forms CA-1 and CA-2.

INSPECTOR'S AIDE TRAINING

By memorandum 3-10-55 from Mr. Edwards to Mr. Mohr, it was recommended and approved that an Inspector's Aide class be selected from a Security In-Service Training Class during April, 1955. This Inspector's Aide class will be held from 4:30 p.m., 5-4-55, to 4:30 p.m., 5-6-55, and will consist of qualified agents selected from the In-Service Class Commencing 4-25-55 and a number of recommended Seat of Government supervisors.

The personnel files of all Special Agents scheduled for the above-mentioned In-Service Training Class have been reviewed and the following agents appear well qualified to receive Inspector's Aide Training. According to their respective SACs, these agents are interested in administrative advancement and are recommended for this training.

SAS Shelburne, Fox, Williams, and are in Grade GS-11. Each has been recommended by his SAC as being far above average, interested in and capable of administrative advancement and completely available. A thorough review of their personnel files fails to disclose any reason why they would not be well qualified to receive this training.

SA Thornton M. Wood entered on duty 3-3-47 and is presently in grade GS-12. He was censured 4-6-55 for approving an inadequate report in his capacity as Assistant Supervisor of the Internal Security Section of the New York Office. It has also been recommended that he be censured for incorporating erroneous information into a report prepared by another agent of the New York Office. He has been commended on 7 occasions since September, 1952, and has not been the subject of any other disciplinary action. Although he has been the subject of recent disciplinary action, it is felt that he should receive Inspector's Aide Training in view of his full-time supervisory status and his otherwise satisfactory services.

In addition to the above, the following Seat of Government supervisors have been recommended by their respective divisions to receive Inspector's Aide Training at this time:

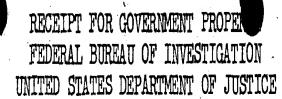

Everett J. Ingram
Joseph F. Condon
Milton T. Cummings, Jr.
Frank A. Stanton
Thomas W. Curran

RECOMMENDATION:

That the above-mentioned agents (33 field agents and 9 SOG supervisors) be approved to receive Inspector's Aide Training in the class being held from 4:30 p.m., 5-4-55, to 4:30 p.m., 5-6-55.

INSPECTOR AIDES

Listed below are the Agents assigned to your division who are active Inspector Aides. You should not offer for an inspection assignment any other Agent who may have been formerly an Inspector Aide. This list is subject to change inasmuch as the Bureau is constantly seeking to retain only the best qualified men for Inspector Aide duties and does not desire to use as Aides men who do not wish to advance administratively or men who have been subjected to recent serious administrative action. If any of the Aides listed below do not wish to advance administratively you should forthwith advise the Bureau. Your communication should be marked for the attention of the Training and Inspection Division.

5/13/51.

Reference is made to the Annual Performance Rating on SA THREADGILL dated 3/31/56, wherein it is noted that SA THREADGILL is capable and has the ability to handle complicated investigations with average supervision. He is physically fit and can function satisfactorily on any assignment. SA THREADGILL has not been disciplined for any personal misconduct and he is completely available for general or special assignment wherever his services may be required.

SA THREADGILL is specifically assigned as a Resident Agent in Oakland, California, assigned to the penetration of the Professional Section of the Communist Party in the East Bay area. He has been extremely alert to develop potential security informants and informants and also in the development and a contact of highly confidential sources. This assignment is particularly dangerous and difficult due to the hard-core makeup of professional-type Communists in the Berkeley and Oakland area. This office has not had any coverage on the Professional Section of the CP until 1956. In 1956 two highly confidential sources of information were developed and numerous leads were obtained. These leads resulted in the identification of members of the Professional Section in Berkeley, California. SA THREADGILL is one of the Agents directly responsible for the successful development of these highly confidential sources of information. This accomplishment was the result of careful planning, hard work, enthusiasm, and the conducting of numerous physical surveillances, many of which were during the evening hours:

RECOMMENDATION FOR INCENTIVE AWARDS AND COMMENDATION

During the past year the Agents assigned to the investigation of the Communist party and CP front groups in the East Bay Region (Alameda and Contra Costa Counties) have done an outstanding job in carrying out the Bureau's responsibilities in the internal security field. A careful, well thought out program was instituted in an attempt to develop as much information as pessible regarding the organization, funds, officers and rank-and-file membership of the CP and the obtaining of more potential security informants.

Although many PSI's, as well as some informants, were producing excellent and valuable information, it was determined that some desirable information was not forthcoming. For example, it was determined that

rank-and-file CP members, as well as some officers themselves, did not know anything about the financial apparatus or organization of the CP. This was true not only in the East Bay Region but in District Thirteen itself.

Only a few trusted members were in possession of this desired type of information. Numerous interviews and re-interviews under the Toplev and security informant programs had not been productive.

Although there were defections from the CP, the defectees were not defecting to become informants. It appeared that the defections were due to a general discontent with the CP line and/or the leaders and sub-leaders in District Thirteen, or a possible fear of having to appear before some type of hearing board.

It appeared that the best and most rapid way in order to obtain the necessary and accurate information desired was through the establishment and subsequent analyzation and correlation of information obtained through highly confidential sources.

Exhaustive interviews with live informants, numerous moving and stationary surveillances, supplemented in some cases with tesurs and misurs, were put into operation.

The results developed from the above were then carefully examined and a determination was made as to the logical highly confidential sources that should be developed.

Working as a team, and utilizing all of the over-all knowledge possessed by the Agents handling the investigation of the CP in the East Bay Region, nine highly-confidential sources were selected and developed.

They are as follows:

San Francisco letter and Forms FD-255 dated 10/25/56 recommend \$150 each to SAs Donald E. Jones, Richard J. McMullen, Roland W. Finley and/Burney Threadgill, Jr. for their part in successfully developing valuable sources of information reflecting organization, funds, officers and rank-andfile membership of the Communist Party (CP) in the East Bay Region. SAC, San Francisco, notes that while some live informants were producing excellent and valuable information concerning the East Bay Region it was felt that other desirable information was not forthcoming from these sources. It appeared that the best and most rapid way to obtain the necessary and accurate information desired relative to the CP in this particular region was through the establishment and subsequent analyzation and correlation of information obtained through special investigative techniques. haustive interviews with live informants, numerous moving and stationary surveillances, supplemented in some cases with technical and microphone surveillances, were put into operation. The results were then carefully examined and a determination was made as to the logical highly confidential sources that should be developed. From this review nine highly confidential sources were selected and developed.

These nine sources have produced 1,023 photographs and 1,551 channelizing memoranda. Material furnished by these sources has included a breakdown of membership figures for the East Bay Region by clubs and sections; a tabulation of dues and sustainers paid on the basis of the individual Party member's income; data regarding transfers of membership within the CP, East Bay Region; organizational structure of the CP in the East Bay Region, as well as numerous valuable intelligence data concerning all phases of CP activities in this area.

Memorandum for Mr. Boardman COMMUNIST PARTY, USA DISTRICT 13 SAN FRANCISCO DIVISION INTERNAL SECURITY - C FBI File 100-3-23

SAC, San Francisco, states that the five Agents set forth above exercised the prime initiative, perseverance and intelligence leading to the development of these sources and were responsible for conducting the necessary neighborhood surveillances, setting up of contacts, development of neighborhood sources, observation points, et cetera. He also notes that the above-mentioned accomplishments were only possible through the teamwork existing between all Agents involved; however, the five Agents recommended for incentive awards were particularly outstanding and deserving of such award for the part they played in the successful development of these sources.

SAC, San Francisco, also recommends that the following
Agents receive letters of commendation for their participation in
the successful achievements set forth above: Richard G. Allen,
Roland M. Cocker, Roy L. Erickson,

Philip B. Nottingham,

George W. Smith and Samuel W. West. In addition,
a letter of commendation is also recommended for Supervisor

for his over-all supervision of the investigation and penetration of the CP, East Bay Region.

It is to be noted that anonymous source contacts, when successful, provide a tremendous amount of important information concerning the communist movement which would have cost the Bureau literally many thousands of dollars if such information was obtained in the usual investigative type of operation. The Agents participating in the anonymous source contacts, therefore, are actually in the position of saving the Bureau large sums of money, not to mention the acquiring of valuable intelligence information so necessary in closely covering the communist and other revolutionary movements. It is believed that the recommendations of SAC, San Francisco, are fully warranted.

RECOMMENDATIONS:

b6

(1) That SAs Donald E. Jones, Richard J. McMullen,

Roland W. Finley and Burney Threadgill, Jr., be
considered for incentive awards of \$150 each for their part in the
accomplishments of the San Francisco Office as set forth in this
memorandum.

Memorandum for Mr. Boardman COMMUNIST PARTY, USA DISTRICT 13 SAN FRANCISCO DIVISION INTERNAL SECURITY - C FBI File 100-3-23 That letters of commendation be directed to SAs Richard G. Allen, Roland M. Cocker, Roy L. Erickson, <u>W. Jefferi</u>s, Philip B. Nottingham, George W. Smith and Samuel W. West for their participation in the successful achievements set forth above. (SA West is currently assigned to Richmond.) **b**6 That Field Supervisor ____ be forwarded a letter of commendation for his over-all supervision of the investigation and penetration of the CP, East Bay Region. (4) That a letter commendation be forwarded to William M. 11/2/56

This is another illustration of the highly competent and effective work performed by agents of the San Francisco Office in the development of information from confidential sources. The action recommended by the Domestic Intelligence Division appears to be completely warranted. Agents Jones, McMullen, Finley and Treadgill merit special recognition in the form of incentive awards since they spearheaded these operations and the eventual results can be directly traced to their major contributions. According to the approved table utilized in determining the amount of awards to be given in cases of this nature, it is felt that their services have been of moderate value and limited application, thus, entitling them to awards of from \$150 to \$300.

BUREAU RECORDS OF AGENTS RECOMMENDED FOR INCENTIVE AWARDS:

Donald Edwin Jones, EOD 2/5/51, GS-12, \$7570. Record entirely satisfactory since he entered on duty. Commended once through SAC.

Richard J. McMullen, EOD 7/7/47, GS-13, \$8990. No commendations or censures since entered on duty. Record entirely satisfactory.

SAC FOSTER: This personnel write-up is being submitted because of an error of substance found in a case assigned to SA THREADGILL. SA THREADGILL is an RA at Oakland, California, and is assigned to the Security-C Squad. He is an Inspector's Aide. By letter dated 11/7/56, SA THREADGILL was commended by the Director and received a cash award in the amount of \$150.00 for his participation in the development and contact of several highly confidential sources who furnished excellent information pertaining to internal security matters. SA THREADGILL is a capable Agent. His performance is satisfactory and he demonstrated a complete willingness at personal sacrifice to carry out his assignments. There has been no unfavorable administrative action taken against SA THREADGILL since his last performance rating.

Rating: Satisfactory.

INSPECTOR TEAGUE: (H. A. Fitzgibbon)

SA Threadgill was assigned a case which was written up as a substantive error. Case is captioned, "John Calvin Taylor, Security Matter-C, Bufile 100-24562." The error consisted of failure on the part of SA Threadgill to verify the subject's residence and to thereafter submit this information to the Bureau. Case was assigned to Threadgill 10/1/56 with a written notation from his supervisor that subject's address be verified and that Bureau be advised. File reflects that on 1/23/57, 114 days after case was reassigned, these instructions were complied with.

SA Threadgill, in his explanation, pointed out that he gave the case investigative attention from the time it was assigned to him but that considerable investigation was necessary to locate subject's address, that when the address was located he complied with instructions. He stated he was aware of the need for prompt attention in matters of this type and regreted the delay.

SA Threadgill, upon being interviewed, presented an excellent personal appearance and a good attitude in that he appeared to genuinely regret the delay involved. He expressed firm intention to eliminate all such errors from his work.

SAN FRANCISCO INSPECTION January 30, 1957 GAH:hko

(Over)

SAC Foster states Threadgill is a capable agent who has demonstrated a complete willingness, at personal sacrifice, to carry out his assignments. He received an incentive award in November, 1956, as a result of his handling of an espionage case.

The outcome of the case involved has/been affected as a result of the error, nor has the Bureau been embarrassed or put to any expense as a result. It appears that SA Threadgill was giving case investigative attention during the pertinent period and could have avoided any criticism by placing a notation in the file reflecting the action he was taking. It, therefore, does not appear that the error involved is substantive in nature.

RECOMMENDATION:

In view of all circumstances, no further administrative action is warranted . . . informative.

INSPECTOR TEAGUE: Pending case. San Francisco origin, Supervised by assigned to SA BURNEY THREADGILL, Jr.	
TAYLOR is a Security Index subject, last report submitted January, 1956, next report due January, 1957. Case opened September 7, 1956, assigned to SA for purpose of verifying residence of TAYLOR, who, according to an informant, had recently taken up residence in a remote area of Placerville, California. By memo to SAC, dated September 25, 1956, SA advised that TAYLOR's residence had been verified at a cabin in Placerville, California. Case was then reassigned to SA THREADGILL (October 1, 1956) with a written notation on memo by Supervisor that FD 122 be submitted and close case. SA THREADGILL's initials appear in block stamp of this memo.	b6
File fails to reflect that any action was taken on supervisor's instructions. File does reflect that on January 23, 1957, or 114 days after case was reassigned, TAYLOR's residence was again verified and an FD 122 submitted January 24, 1957. It is noted that at time of verifying TAYLOR's residence on January 23, 1957, his residence had changed from Placerville to Berkeley, California.	
Explanations requested as follows:	
1. SA BURNEY THREADGILL, Jr Reason for not immediately submitting FD 122 when case was reassigned - Reason for delay of investigation.	
2. SUPERVISOR Reason why above delinquencies were not discovered during 30 day file reviews.	bб,
3. SAC HARVEY G. FOSTER -	

SAN FRANCISCO INSPECTION 1/28/57

Page 2

SA BURNEY THREADGILL, JR.: Office memorandum dated 9/25/56 indicated that subject planned to stay at a cabin in a remote area near Placer-ville, California. It is noted that informants in this case had reported that subject, a former contractor, would make repairs on above-mentioned cabin during the late summer months. This case was assigned to me on 10/1/56 with notation by Supervisor that FD-122 should be submitted. FD-122 was not submitted at that time because subject's landlady at 1925 Walnut Street, Berkeley, California, advised that subject, who is 77 years old and in retirement, still retained his permanent residence there and often made trips to visit friends in various parts of the state and was expected to return soon. I requested the agent handling the two informants reporting on TAYLOR to be on the alert for his return.

Informants reported subject to be in Placerville only temporarily. The two informants reported that on 11/3/56, during a meeting of the West oast Committee, subject was back in the Bay Area and recently had spent a weekend with friends at Carmel, California. In December subject's landlady advised that subject had moved and she would attempt to determine his whereabouts. I also investigated to determine same. In January, 1957, I decided to check the postal records at the Berkeley, California, Post Office, on the possibility he had moved to Berkeley, and determined subject's address to be 2905 Shasta Road, Berkeley. This address is the residence of another SI subject of the San Francisco Office. Therefore, contact was established with a neighborhood source _______ who identified subject from a photograph as residing at 2905 Shasta Road. FD-122 was submitted 1/24/57.

b7D

I am aware of the need for prompt attention in matters of this type and I regret the delay in this case.

Supervisor When it was determined that TAYLOR was residing at the cabin in Placerville, the case was re-assigned to SA THREADGILL (on 10/1/56,) and he was instructed to submit FD-122 and close the case.

On 11/3/56, informants reported that subject was in the Bay Area and had also been visiting friends in Carmel, California. In December 1956, SA THREADGILL advised that TAYLOR had moved and it was just a matter of time until he located his permanent residence. I was aware of the facts in this case and the case was discussed with SA THREADGILL during the monthly case reviews. An FD-122 should have been submitted on 10/1/56; however, in view of the facts I did not instruct FD-122 to be submitted in November, it being noted that subject's permanent residence remained the same.

In December, 1956, we learned that subject had moved and it appeared that subject's permanent residence would be located momentarily, as TAYLOR is covered by two excellent informants.

I believe my action proper in November and December, as the case was receiving attention and the subject's whereabouts was not truly "unknown" at that time. However, had I prepared an administrative tickler in October, the FD-122 would have been promptly and properly submitted at that time. I might say that SA THREADGILL was married on 10/20/56 and was on his honeymoon until 11/1/56, which might provide some mitigating circumstance for his delinquency in this case.

SAC FOSTER: The Inspector's comments have been noted and corrective action has been taken.

Mr. Burney Threadgill, Jr. Federal Bureau of Investigation San Francisco, California

Dear: Mr. Threadgill:

Your headquarters are changed from Oakland, California, Berkeley, California,

effective upon your arrival there on or after this date. This change is made for official reasons and you will be allowed transportation expenses and per diem at the rate of \$12.00 per day within the U.S., \$6.00 per day for air travel, rail travel, and ocean travel by steamship outside the continental limits of the U.S., transportation expenses for your immediate family, and transportation cost of household goods and personal effects as provided for in Public Law 600 dated August 2, 1946, and Executive Order 9805, dated November 25, 1946, as amended. You are authorized to use your privately owned automobile and you will be reimbursed at the rate of ten cents per mile plus incidental expenses, not to exceed the cost by common carrier over the most direct route for all persons officially traveling therein. Should your dependents travel separate and apart from you, expenses will be allowed under the same conditions as above.

Very truly yours,

John Edgar Hoover 67-4

BERKELEY, CALIFORNIA, RESIDENT AGENCY

SAN FRANCISCO DIVISION

Remylet 6/7/57 captioned, "Establishment of Resident Agency. Berkeley, California, San Francisco Division," and subsequent correspondence pertaining to establishment of this Resident Agency, particularly mylet 9/3/57.

Furniture has been received, telephones installed, and the necessary security measures completed. All renovations and alterations agreed upon have been completed.

UACB, space will be occupied September 9, 1957. Complete address is as follows:

Mercantile Building Room 314 2082 Center Street Berkeley 4, California.

The telephone numbers are Thornwall 5-7288 and Thornwall 5-7289. The facilities will also include an off-premise local, Extension 317, KLondike 2-2155.

Arrangements will be made in the immediate future to have the appropriate lettering placed on the entrance to the Resident Agency space and the Bureau will be advised. As the Bureau was previously advised by letter of 7/8/57, no garage facilities are currently available which meet Bureau standards; however, a modern four-floor garage is under construction and due for completion about 2/1/58.

A review of the work load within the area of this Resident Agency as of 9/5/57 reflects it is substantially the same as set forth in relet 6/7/57 and it is believed that seven Agents could adequately handle the work.

It is noted that page four of relet dated 6/7/57 listed identities of Special Agents now assigned to the Oakland Resident

Name:

BURNEY THREADGILL, JR.

Title: Special Agent

EOD:

7/21/47

Grade: GS-13 at \$10,370

Veteran

Not on Probation

SAC AUERBACH: This write-up is being submitted inasmuch as SA THREADGILL is a Resident Agent at Berkeley, California. He has been so assigned since September, 1957. He was previously assigned as a Resident Agent at Oakland, California, since January, 1955. SA THREADGILL has displayed initiative, resourcefulness and enthusiasm in attempting to develop more informants in his Resident Agency. At the present time he is specifically attempting to develop more informants in the Socialist Workers Party and factionalist groups. Due to the nature of this assignment and inasmuch as the individuals under investigation are either students at the University of California or closely associated with the University, these investigations have been extremely sensitive, and SA THREADGILL has been doing an excellent job in his assignments. He has displayed an outstanding attitude, willingly shares the work load, and is well regarded by those individuals with whom he comes into contact. He is well suited for his present assignment.

> Rating: EXCELLENT.

INSPECTOR NUCENT: XXX

10/31/59

Inspector agrees with above comments by SAC. SA THREADGILL makes a very good appearance and is definitely well qualified for his present assignment as Resident Agent. He produces an above average volume of work, his TIO is below the office average, and his VOT is about average. He is in his office of preference, has no problems, and is not interested in advancement along administrative lines, since he prefers investigative assignments. He is completely available for general or special assignments. On the day the Berkeley Resident Agency was inspected, Mr. THREADGILL had 25 cases involving approximately 45 days work assigned to him. Inspector considers this a good volume.

SAN FRANCISCO INSPECTION 10/14/59 GAH:hko

2-Helin

THREADGILL, who works security matters exclusively, has one Potential Security Informant under development. He does not have any approved informants, but it appears that the Potential Security Informant he is now working, will soon qualify. There is no reason to recommend any change in Mr. THREADGILL's present assignment.

RECOMMENDATION: Continue in present assignment.

SAC AUERBACH;

This write-up is being submitted inasmuch as SA THREADGILL is a Resident Agent at Berkeley, California. SA THREADGILL is assigned to Security - C Squad #10 and has displayed initiative, resourcefulness and enthusiasm in attempting to develop informant coverage in the area covered by his Resident Agency. Many of the investigative assignments handled by SA THREADGILL have centered about the University of California campus and, of necessity, have to be handled in a most discreet manner. He has displayed an outstanding attitude and willingly shares the work load and is well-regarded by those individuals with whom he comes in contact. There has been no administrative action since his last performance rating. SA THREADGILL is not interested in advancement along administrative lines but he prefers investigative assignment in the field.

INSPECTOR R. K. MOORE: The Inspector agrees with the comments of the HJM: MDW SAC. 11-8-60

SA THREADGILL is 38 years of age and has one child. He presents an excellent appearance, is mature, and has a fine attitude toward the Bureau. He is well poised and gives every indication of knowing what he is doing in the investigative field. He is adequately sharing in the work load of the San Francisco Office. He currently has 35 cases assigned to him and during the past three months was above average in closing cases. He was below the office average in overtime during the past three months, and this was discussed with him. He manifested an excellent attitude and indicated he would share more fully along these lines. He is within the desirable weight limit and is available for general and special assignment. He is not

SA THREADGILL dresses in an extremely neat, conservative manner, makes an excellent personal appearance, has a very friendly personality and is well thought of by his fellow employees. are no limitations on his availability and there are no physical limitations affecting his performance. He has the ability to participate in raids and dangerous assignments. SA THREADGILL vis assigned to the Security - C Squad as a Resident Agent at Berkeley, California. He has displayed initiative, resourcefulness and enthusiasm in an attempt to develop more informant coverage in the area covered by his Resident Agency. In addition to his security assignments, he frequently handles criminal and applicant type cases and these are handled in an excellent manner. SA THREADGILL was commended by the SAC on two occasions in November and December, 1960 in connection with two bank robberies, which resulted in the identification and the arrest of the subjects. By letter dated July 20, 1960 the President of the Pacific Intermountain Express, in a letter to the Director, commented on the exceptionally fine manner in which the Bureau handled a Theft from Interstate Shipment case involving the theft of a truck and trailer with a load of liquor. As a result of the investigation of this Office, ten persons were apprehended. SA THREADGILL was one of the Agents responsible for this fine investigation. Much of SA THREADGILL's work involves the investigation of the Socialist Workers Party (SWP) and factionalist type individuals who have some connection with the University of California at Berkeley. These investigations are most delicate and demand the exercise of excellent judgment and ingenuity. SA THREADGILL in these investigations has demonstrated his ability to handle complicated investigative matters with a minimum of supervision. SA THREADGILL has done an outstanding job in securing photographs of security subjects, often times under very difficult circumstances. He has also showed outstanding resourcefulness in conducting pretext interviews. His performance entitles him to an overall rating of excellent.

PART I. GENERAL COMMENTS

SA THREADGILL dresses in an extremely neat, conservative manner, makes an excellent personal appearance, has a very friendly personality and is well thought of by his fellow employees. There are no limitations on his availability and there are no physical limitations affecting his performance. He has the ability to participate in raids and dangerous assignments. SA THREADGILL is assigned to the Security-C Squad as a Resident Agent at Berkeley, California. He has displayed initiative, resourcefulness and enthusiasm in an attempt to develop more informant coverage in the area covered by his Resident Agency. In addition to his security assignments, he frequently handles criminal and applicant type cases and these are handled in an excellent manner. Much of SA THREADGILL's work involves the investigation of the Socialist Workers Party (SWP) and factionalist type individuals who have some connection with the University of California at Berkeley. These investigations are most delicate and demand the exercise of excellent judgment and ingenuity. SA THREADGILL in these investigations has demonstrated his ability to handle complicated investigative matters with amminimum of supervision. SA THREADGILL has done an outstanding job in securing photographs of security subjects, often times under very difficult circumstances. He has also shown outstanding resourcefulness in conducting pretext interviews. His performance entitles him to an over-all rating of excellent.
